Robert. It's not enough. We are taking at least 20 samples a day (10 locations, water / sediment), plus I have a call out to US FWS and expect that we may augment some of their sampling (sensitive habitat) needs. Additional, I need a reach back GIS / map making support for public meetings and documentation. They should plan on 5 hours a day of support. I'm also considering having a START team up with the CIC group for documentation and technical support.

Thx.

Look at the number of samples and see if it is enough.

Hi Rob,

Here is the Cost Projection Worksheet you requested. Based on our discussions, the Scope of Work is:

CBI/Ex. 4

CBI/Ex. 4

Please contact me at your earliest convenience to discuss any changes to the Scope and/or timeframe you need to finalize this TDD.

Thank you,

Ben Castellana Ph.D.
